To Stakeholder, Property Owner, or Resident:

In order to improve safety for all modes of transportation, the City's Public Works Department is implementing and improving a bicycle route system, as directed by the Austin City Council per **City Ordinance No. 20090611-075 (The Austin Bicycle Plan)**. East Live Oak Street from South Congress Avenue to East Oltorf Street is part of Route 168 of the City of Austin bicycle system. You are receiving this notification because you live on and/or own property adjacent to East Live Oak Street in Austin, Texas, and/or are a stakeholder in the area.

In coordination with routine street maintenance (road re-surfacing and re-striping), and to enhance mobility in the corridor for both motor vehicles and bicycles, the street striping will be reconfigured to include bicycle lanes or to remove parking from existing bicycle lanes. To accomplish this reconfiguration, on-street motor vehicle parking will be prohibited on certain sections of East Live Oak Street and will be permitted on other sections. The corridor's safety and mobility, as well as the results of an on-street parking use analysis, were considered to determine these parking modifications:

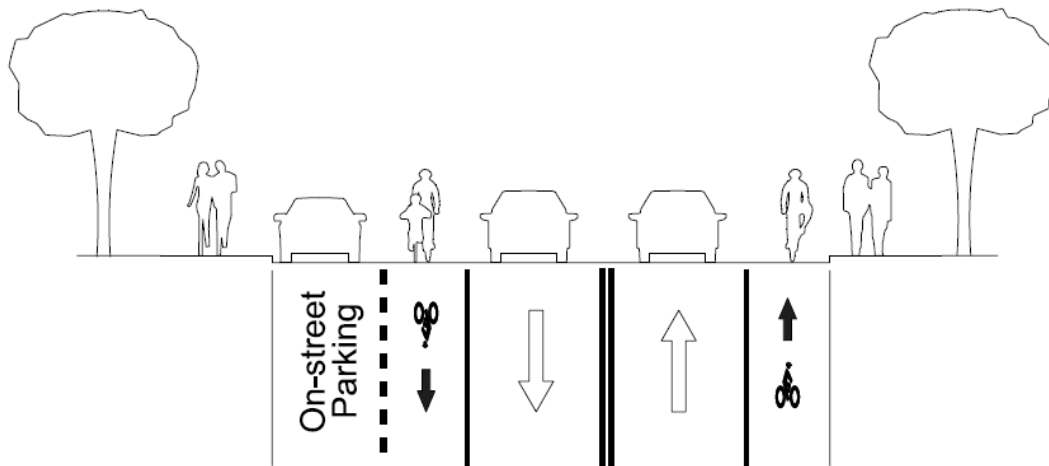

- **East Live Oak Street** (from Alta Vista Avenue to East Oltorf Street) – prohibit parking on the north side of the street.

Figure 1 – East Live Oak Street Planned No Parking Zones

The dashed line in Figure 1 does not indicate the location of bicycle lanes; it only indicates the no parking areas. As indicated in Figure 1, parts of East Live Oak Street (from Alta Vista Avenue to East Oltorf Street) will have permitted parking on only one side of the street. These locations will have bicycle lanes in both directions and will also have a parking lane on one side of the street as shown below in Figure 2.
